PIBE CHRISTMAS-TREE WEATHER. The Christmas Tree is a form of vegetaon which thrives best in a cold and nipping gan to blow. ir, and with a thick layer of snow warming roots. Such cutting weather stirs the human heart to a warm pity for those who are left defenselessly exposed to its brunt,

and misses is drawn from the hearts of men. Such weather should stimulate every kind WORLD'S Christmas Tree. Remember that clanking about the platform in the Broadway when this gracious scheme of THE EVEN- Tabernacie last might, lecturing on the horrors ING WORLD is spoken of as the tree, the of the elberian prison of Kara to the welrd ac singular number is only a form of speech.

There will be half a dozen trees, to say the ast, in as many different places.

So there is a large field for vigorous and in the lives of hundreds of poor children to come to pass without feeling that your good nature and your ready purse have been contributing thereto.

Send, then, something to help along the Christmas Tree for the little ones of Poverty. Again be it said that large contributions, though worthily made and most gratefully received, are not required. A thinks a dead cinch bug, dead from cholers, number of the givers, not the size of the in Kansas has materially brightened. gifts, which will make the trees groan under their plenteous weight of joy bestowing

THAT MARVELLOUS LYMPH.

It is extremely gratifying to observe the prudent caution with which the majority of the medical experimenters with Dr. Koon's remedy are proceeding. From the WORLD. Nearly every doctor of established reputation, however sanguine his sful experiments.

The younger Dr. Loomis, who has just returned from Berlin after a flying trip there to visit Koch and obtain a vial of the precious stuff, expresses himself so admirably night, despite this strain. He is an indethat these words of his are worthy of quotation. They should express the mind of every sound, able practitioner. Dr.Loomis

says :

** As to the efficacy of the lymph in cases of ** As to the efficacy of the lymph in cases of taberculosis, it is too early to venture anything definite in the way of an opinion. There has not been time to give the discovery a fair interest left in seeing how he will handle it.

**As to the efficacy of the lymph in cases of table way. I am not at it erry to state the plug a few days ago in quite an original waik ing gown. The material was a soft gray cloth interest left in seeing how he will handle it. chance in this respect, although there is no reason to doubt that it will accomplish won-ders in tubercular cases where it is not given toolate. No one claims for the lymph that it to a life restorer or that it is available to incur-

Go slowly, then ! Provided there be pruoe in the experiments, there cannot be too many, nor can medical energy be better employed than in thoroughly sifting the claim which Dr. Koch makes for his lymph. This is a point which demands settlement in the interests of civilization and humanity.

A rosy-hued war is developed by a contest at the Teachers' Bazaar for the bronzed statue of Washington. The girls of the programme, however, not a single kicker has Normal School want it. So do the boys of the New York College. The youthful males ead of scratching around for votes for the maidens fair, like nice young roosters on the bench yeaterday with Justice O'Reilly at that he passibility was left of its ever for the coy and flattering hen, are just hustling to bag the old bronzed thing for themselves, Such ungallant conduct should rouse an indignant sense in the community which ought to find expression in multitudinous votes for the dear girls

As an echo to the other surprises of the the official figures that the Socialists cast 13,704 votes in this State. Of this number 5,020 were cast in New York County and the rest in the outside counties, where it had been supposed the Socialist vote would hardly be worth the counting.

Baseball indoors bath a startling sound. But Madison Square Garden is a big place and they may use an extra "dead" ball. se ardent spectator should receive a hot fly on his bulging orb it might have a esting effect on the congregation. But let us hope for the best.

STEPHANI is said to be sane by the maority report. The feeling that murderous lse and sanity are incompatible should not be allowed to obtain ground in the courts of justice or in the feelings of the nity. Hanging or electrocution is horribly unpleasant, but so is murder.

The Duchess of MARLBOROUGH has had 00 more allowed her from the julcy ate of the late Mr. HAMERSLEY. Her frace gets a little fortune at each new se on this gold-bearing deposit.

ORE HOOSEVELT broke a lance or a Four Hundred at the last symposium of a Nineteenth Century Club. Although the most serious hisod diseases, and Because, if you give it a fair trial it is reasonably serial to be you seed.

They Are Attached to Extremely Sensitive Nerves, and are Valu-The long hairs on the side of a cat's face are organs of touch. They are attached to a bed of fine glands under the

skin, and each of these long hairs is connected with the nerves of the lip, says lady who wrote t ar-begatting children stories. "I the South Boston News, hate them?" she answered vindictively, and then he thought what a great and beautiful thing Art is! "The slightest contact c with pay surrounding of The slightest contact of these whiskers

with any surrounding object is thus felt most distinctly by the animal although the hairs themselves are insensible. They stand out on each side of the hon as well as on the common cat.

From point to point they are equal to the width of the animal's body. If we imagine, therefore, a lion stealing through a covert of wood in an imperfect light we shall at once see the use of these

long bairs.
They judicate to him through the niceest feeling any obstacles which may pre-sent itself to the passage of his body; they prevent the rustling of boughs and which would give warning to his prey if he were to attempt to pass '00 c'ese to a bush; and thus in conjunction with the soft cushions of his feet and the fur upon which he treads—the claws never coming in cont ci with the ground—they enable him to move toward his victim with a stillness even greater than that of

the snake, which creeps along the grass and is not perceived until it is coiled round its prey. Is this evolution or de-ROBBERS WITH SILK HATS

geese, says the Oregonian, and the hunters

The geese swarm in the stubble fields to eat the scattered heads of wheat, and the hunters dig pits in these fields and lie in them, having first set out a pumber of tin A hunter named Adkins, a day or two since, while sitting in a pit near Fairfield waiting for geese, saw a coyote sneaking down on his decoys. The cunning brute crept along on his belly for about fifty feet and then made a spring of about twenty feet, landing on top of one of the tin decoys, He was the most disgusted looking coyote ever seen in that section, and Adkins felt so sorry for him that he shot him, breaking
